**Rice Ball Rice**

A FILM BY Kato Ikuo

MUSIC Abo Wakako(parai)

PRODUCED BY TaMaNi Film

## Synopsis

I love rice balls. Let's take a grain of rice in our mouth and watch the rice grow with pleasant music!

## About the film

I would be happy if small children could learn about rice in a fun way.  
Created an animation of the process of eating rice  
(rice growing, rice planting, rice harvesting, rice cooking, etc.).  
This work is taken by putting clay on glass and applying light to it.

## About the music

**Music: ABO Wakako**

The animation is based on the exciting music of the South Indian instrument "Parai". She is an instrumentalist.  
Currently, she is active in the South Indian drum dance "Paraiattam" with the Nrithyanjali Dance Troupe.
